ABOUT ME

Twenty years old Computer Science student and aspiring software developer. I enjoy creative problem solving and spending time understanding the inner workings of complex systems or theoretical concepts, as well as collaborating with others.

I am looking for a role where I can grow and learn from experienced team members, while drawing on project expercience I have already executed.

EDUCATION

Universidade da Coruña, Facultade de Informática da Coruña
Bilingual (Eng, Esp) Bachelor's Degree in Computer Engineering
September 2020 - Present

Specialized in Computer Science and Artificial Intelligence

Relevant coursework: Discrete Mathematics, Algorithms, Programming Paradigms, Automatic Learning, Intelligent Systems, Concurrency and Parallelism, Software Design.

PROJECTS

While I lack profesional experience, I have participated in numerous academic projects, which helped me develop communication, problem solving and organization skills as well as familiarity with different technologies

Algorithm Analysis

Empyrical and theoretical analysis of different implementations of several sorting algorithms.

- team size: 3
- language: C

Neural Network

Implementation in vanilla Haskell of a working, uni-neuronal, Artificial Neural Network.

- team size: solo
- language: Haskell

Distributed Systems

Layered architecture implementation of a mock event management application using several tecnologies.

- team size: 3
- language: Java

SKILL-SET

Technical Skills

I consider myself relatively flexible when it comes to new technologies. My current focus is developing general hard skills like logic, data structures, efficiency, paradigms... in order to be able to readily learn new technologies and languages.

- Tools: JetBrains Suite, Neovim, Bash, LaTeX, Git
- Languages: C, Haskell, Ocaml, Python, Java

Interests

There is a significant overlap between my technical profile and my personal interests:

- Functional Programming
- Artificial Intelligence
- Academic Breakthroughs
- Open-Source
- Latest Tecnologies

Soft Skills

Apart from my technical stack, I also possess the following interpersonal abilities:

- Adaptability
- Teamwork and Collaboration
- Problem Solving
- Independence
- Curiosity
